Professional Summary

B.Tech Artificial Intelligence and Data Science undergraduate with a strong foundation in **frontend development, responsive web design, JavaScript, and React.js**. Experienced in building AI-integrated web applications, interactive dashboards, and API-driven interfaces. Strong interest in developing scalable, user-focused web products and applying problem-solving skills to real-world software engineering challenges.

Technical Skills

Languages: JavaScript (ES6+), Python, HTML5, CSS3

Frontend: React.js, Bootstrap, Sass, Responsive Design, UI/UX

Web: REST APIs, JSON, JavaScript, Vite

Programming Concepts: Object-Oriented JavaScript, Data Structures, Algorithms

Tools: Git, GitHub, VS Code

Projects

RecoverAI – AI-Powered Autonomous Revenue Recovery Agent *React.js, JavaScript, HTML5, CSS3, REST APIs* GitHub

- Designed and developed a responsive dashboard for detecting, diagnosing, and recovering merchant revenue loss.
- Implemented dynamic data visualization components for financial metrics, transaction states, and error diagnostics.
- Integrated asynchronous REST APIs to manage real-time recovery workflows, application state, and user interactions.

MedInsight AI – Multimodal Medical Report Analysis System *React.js, JavaScript, Bootstrap, UI/UX* GitHub

- Built a responsive frontend interface for an AI-powered medical document analysis platform.
- Developed interactive components for medical report comparison, longitudinal health tracking, and clinical-context summaries.
- Integrated frontend workflows with backend APIs and optimized layouts for usability and cross-browser compatibility.

Plagiarism Detection System using Sequence Algorithms *Python, FastAPI, NLP, LCS* *Academic Project*

- Developing a document comparison system to identify matching content between user-provided PDF/text documents.
- Applying sequence-based algorithms such as Longest Common Subsequence (LCS) to calculate textual similarity.
- Designed the system to generate similarity percentages, matched content, and source references in a structured report.

Education

R. C. Patel Institute of Technology, Shirpur — **Shirpur, Maharashtra**
B.Tech in Artificial Intelligence and Data Science – Autonomous Institute — *2024 – 2028 (Expected)*

Pankaj Junior College, Chopda — **Jalgaon, Maharashtra**
HSC – Maharashtra State Board | Distinction: 78.17% — *Feb 2024*

Pankaj Secondary & Higher Secondary School, Chopda — **Jalgaon, Maharashtra**
SSC – Maharashtra State Board | Distinction: 89.80% — *Mar 2022*

Coding Profiles & Achievements

- **LeetCode:** Active problem solver focusing on Data Structures and Algorithms with optimized JavaScript solutions.
- **Kaggle:** Participating in machine learning competitions and practical data science tasks involving data preprocessing and exploration.
- **GitHub:** Maintains project repositories demonstrating practical experience with React.js, Python, REST APIs, and AI-integrated applications.

Additional Information

Languages: English, Hindi, Marathi

Interests: AI/ML, Web Development, Data Science
